

## FLYING FIELD O. K.

Kansas Curtiss Airplane Company Aviators Enthusiastic.

Say Cowles Tract One of Best Natural Grounds in U. S.

REPORTER PLAYS WITH BIRDS

Finds Things Running Smooth a Mile "Up."

Planes Will Fly Over City Every Day Now.

BY "DOC."

Enthusiastic approval of Cowles field was expressed by the aviators of the Kansas Curtiss Airplane company, who were flying above the city today. N. D. Triner, chief flying instructor for the company, says it is one of the best natural fields he has ever seen. It is high in the middle, and has a natural drainage, he pointed out. Rains will not muddy it up for days at a time. The ground is firm with just the right amount of elasticity to make landings easy and light as a feather, the fliers declared. F. C. Anderson made only one criticism. An old road running thru the field was a hollow. This can be easily filled, however.

The field is located on the road that runs by the east side of the park, just north of Seventeenth street. Thirtieth street extends directly to the field. It will be possible for planes to land or take off in any direction, making allowance for the wind. The prevailing wind here is from the south. Anderson stated this morning that a number of students who have signed up for the flying course will come to Topeka as soon as the company is operating completely. Fliers are going to Fort Dodge, Iowa, soon to bring down two more planes. Both of those now at Cowles field are the Curtiss JN 4-D type, one Canadian and one American. The Canadian plane was in the air today.

A representative of The State Journal took his maiden air trip in one of Anderson's machines this morning.

"Contact," said Anderson, chief flying instructor.

Anderson whirled the "prop." The powerful 90-horse power motor began to roar and the big Curtiss JN 4-D took off on its first flight in Topeka with the reporter as a passenger.

Triner Experienced Flyer.

Triner spent a year flying over the western front in Europe, meditated the reporter. Should be pretty safe with him. Then he remembered how the crowd on the ground had tried to push him as if to say, "I wonder what that bird will do when he gets in the air. Probably lose his lunch over the ship's side."

Consciousness came then; the Curtiss was already in the air. With a sudden lurch, the Curtiss JN 4-D seemed to hit a "bump" and bounce into the air.

The plane rose higher. The air was now as smooth as a paved street. In a surprised way the reporter realized that he had no sensation of great height or that the plane was moving rapidly. The plane reached a height of more than a mile. Moving north with the wind it was making a speed of around 100 miles an hour. The view from underneath in panorama form like a little garden.

Mile Up in Air.

When directly over the state house dome Triner shut off the motor, tapped the passenger on the shoulder and shouted at him that they were a mile in the air. It thrilled one, but it was not nearly so fearsome as imagination had pictured it.

Flying was a wonderful sport. Triner slowed down the motor and coasted, like a big car on a down grade, toward the field. This is going to be bad news, thought the reporter. "My aunt is going to have a awful sick boy in just about a minute."

The plane tipped over on its side, hovered an instant, and started the dive toward the field. The sensation of speed had been lacking before. There was now a speed in the air. The passenger felt he could take care of it. The sickened, "all gone inside" feeling that one gets when an express elevator in a big city skyscraper starts for the ground came the instant the plane started earthward. Involuntarily the passenger grabbed the rails of the cockpit, stiffened out and hoped it was not a long way to the ground. It was not, either. The sickened feeling passed away as the plane straightened out for the contact with the ground. The landing was so easy the passenger did not really know when he ceased to be in the air.

"I could have jizzed it up a bit for

## North Topeka News

Items for this column may be left at Editor's drug store or telephone Eleanor Kimball, 3331 after 6 o'clock. Other hours, 3525.

The building of a church at the Prairie Home cemetery north of Menoken will be discussed at a meeting which will be held at the Pleasant Ridge church north of Kiro. All persons interested are urged to be present and join in securing action on this important matter.

The Red Cross home nursing classes will meet regularly on Tuesday afternoon and evening and on Friday afternoon and evening at the Community house, Laurent and Jackson streets.

Notes and Personalities.

The Ladies' Aid of the Second Presbyterian church met this afternoon at the church.

Miss Myers, of Pittsburgh, Pa., is the guest of her sister, Mrs. C. C. Clark, of Quincy street.

Will and Tom Baker, of the Graham Clothing company, went to Kansas City today on business.

Mr. and Mrs. Clarence Edmond and Mr. and Mrs. J. M. Grooms have moved from 120 Jefferson street to 103 Quincy.

North Topeka yesterday looking after property interests.

The funeral services of Mrs. Mary Littlejohn, who died Monday, were held this afternoon at 2 o'clock at Casswell's chapel, burial in Rochester cemetery.

Blue Relief corps, No. 3, will hold a quilting tomorrow afternoon from 1 until 6 o'clock at the home of the president, Mrs. H. E. Brownell, 834 Quincy street.

The Women's Foreign Missionary society of the Kansas avenue Methodist church will meet tomorrow afternoon at the home of the president, Miss Clara Holman, 110 Evelyn street.

The Bible class of the Central avenue Christian church met last evening at the home of Mrs. C. C. Clark, in Quincy street. The food sale which was to have been held this week by W. B. C. No. 6, has been postponed indefinitely.

Notes and Personalities from East Side by Frances Jones. Telephone 3330.

The Amos class of the Second Avenue Baptist church will have a meeting this evening at the home of Miss Estia Goodrich.

Mrs. Z. D. Brown of Kansas City is visiting her father, Mr. J. H. Park, 255 Lake street.

Mr. and Mrs. C. M. Castor of Kansas City were called here last week by the illness of Mrs. Castor's mother, Mrs. J. B. Castor. Mr. C. M. Castor is now quite ill with the rheumatism.

Mrs. and Mrs. Scott Davis and little daughter, Marjorie, have returned to their home in Kansas City from Topeka, where they spent the week end with their parents.

Miss Ellen Boren of Ottawa is visiting her uncle, Mr. E. R. Boren and family, Chandler street.

The Bohemian society of the Third Christian church will have a meeting Thursday afternoon at the home of Mrs. Joseph Hayes, 616 Lehigh street.

Dr. G. B. Cowley has returned to his home in Corvallis, Mo. He spent the week end visiting his daughter, Mrs. E. W. Harrison and family, East Eighth avenue.

Mr. and Mrs. A. T. Wedorf, Tulsa avenue, had as dinner guests, Tuesday evening.

ing, Mr. and Mrs. W. W. Johnson, Mr. and Mrs. Carl Johnson and family, Mr. and Mrs. W. W. Johnson are changing their residence from Ohio avenue to Winfield avenue.

The Mistotee club will be entertained Thursday afternoon with Mrs. Sadie Johnson, 1225 Lincoln street, as hostess.

The Rustler's class of the Third Christian church will have a busy day this evening at the home of Mr. and Mrs. A. Jones, 312 Lehigh street.

Mr. Helm who has been seriously ill for the past two weeks at his home, 224 Twiss avenue, is recovering.

The Rev. E. W. Harrison, East Eighth avenue, is visiting relatives at Herington, Kan.

Mrs. E. D. Simonson and two sons will leave this week to spend the summer with relatives in Kentucky.

MEXICANS NOT WANTED HERE.

State Labor Commissioner Discourages Relief in Kansas.

Wholesale shipments of Mexican goods into Kansas to relieve the annual farm labor shortage was discussed today by John H. Crawford, state labor commissioner, in letters written to employment agencies in Kansas, Kansas City, Mo., and in Texas.

Crawford declared that Mexican labor tends to lower the high standard of living maintained by American labor. He further asserted that in the event Mexicans were shipped into Kansas for harvest that cities like Topeka would be filled by unemployed Mexicans following the harvest season.

"In almost every 'Little Mexico' in cities of Kansas comes the same story of Mexicans armed and much filthy vice and crime," Crawford said. Other reasons assigned by Crawford for the position he has taken against shipment of Mexicans into Kansas follow:

"They are group workers and not adapted to harvest work, where they would be more or less scattered.

"Farmers could not take them into their homes and would be compelled to provide separate quarters."

Crawford explained that his letters

mailed to employment agencies today followed letters of inquiries from certain agencies regarding his attitude on a proposed plan to ship Mexicans into Kansas for the coming harvest.

"ORPHAN" MAY COME TO TOPEKA.

Move On to Extend L. & T. Service to This City.

Topeka may have passenger service from Leavenworth over the L. & T. railroad if plans now being considered are consummated. Plans are being considered to extend the line from Meriden to Topeka or to contract with the Santa Fe for the use of its tracks.

The Rock Island has offered the L. & T. the use of its rails if connections

can be obtained. Years ago a right of way was purchased and graded into North Topeka.

E. R. Hayes, who will commence work soon on a new seed house at the corner of Kansas avenue and Curtis streets, has offered a portion of the new building for a station.

The North Topeka Civic club has taken no action in the matter of starting a movement to vote bonds for building the "orphan road" into North Topeka.

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth, like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So, on strong liquids, it is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that icky feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "loggy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 10c and 25c.
